21st Annual Conference *of the* **National HIV Nurses Association (NHIVNA)**

27–28 June 2019 · Manchester Conference Centre

21st

Annual Conference *of the* National HIV Nurses Association (NHIVNA)

Delivering the NHIVNA research strategy: where are we one year on?

Dr Hilary Piercy

Sheffield Hallam University/ Chair NHIVNA Research subcommittee

Declaration of interests relating to this presentation

- **Statement of interests: None**

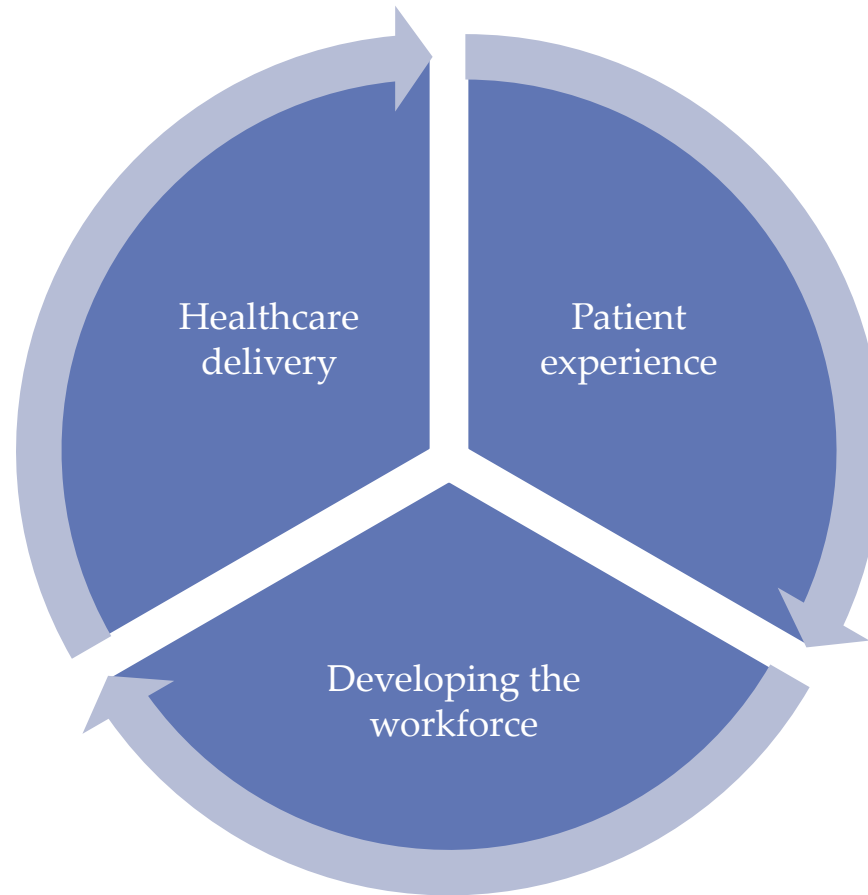

National Research and Development Strategy for HIV nurses

Aims of the strategy

- Increase the amount of high quality HIV nursing research, evaluation and audit aligned to current health priorities
- Develop research capacity and capability of the NHIVNA membership
- Establish a framework in which nurses working in HIV can shape the future of care delivery based on a culture of continuous quality improvement and through promotion of evidence based practice.

The research themes

Key outcomes

- Create research and development opportunities
- Foster productive research collaborations
- Demonstrable impact of our research in the areas of: Service delivery, patient experience and workforce development.

Indicators of progress

- Level of engagement with the research networks
- Indications of research collaborations
- Applications and uptake of research funding opportunities
- Completion of funded projects
- Research outputs

NHIVNA research award scheme

- Funding for project costs
- Mentorship and support

Emma Hainsworth

Identifying priority areas for interventions to improve healthcare experiences for patients with a dual diagnosis of HIV and cancer and describing the barriers and facilitators to their implementation

Charlie Hughes

Initial perceptions of HIV nurses involved in delivering a community based intervention to improve engagement of HIV patients in care and treatment

Felicity Young

- What is the experience of HIV healthcare while in English prisons? An exploration of men's experiences.

Assessment of progress

- Level of engagement with the research networks
- Indications of research collaborations
- Applications and uptake of research funding opportunities
- Completion of funded projects
- Research outputs

What next?

- Research award scheme 2020
- Patient and public involvement research training and development programme - MAC AIDS funded

Conclusion

- We have made good progress in the first year
- Provides a foundation on which to build
- The strategic plan gives us a roadmap and a way for measuring progress.
- Make use of the opportunities and get involved
