21st Annual Conference of the National HIV Nurses Association (NHIVNA)

27–28 June 2019 · Manchester Conference Centre
Delivering the NHIVNA research strategy: where are we one year on?

Dr Hilary Piercy
Sheffield Hallam University/ Chair NHIVNA Research subcommittee
Declaration of interests relating to this presentation

• Statement of interests: None
Aims of the strategy

• Increase the amount of high quality HIV nursing research, evaluation and audit aligned to current health priorities
• Develop research capacity and capability of the NHIVNA membership
• Establish a framework in which nurses working in HIV can shape the future of care delivery based on a culture of continuous quality improvement and through promotion of evidence based practice.
The research themes

- Healthcare delivery
- Patient experience
- Developing the workforce
Key outcomes

• Create research and development opportunities
• Foster productive research collaborations
• Demonstrable impact of our research in the areas of: Service delivery, patient experience and workforce development.
Indicators of progress

• Level of engagement with the research networks
• Indications of research collaborations
• Applications and uptake of research funding opportunities
• Completion of funded projects
• Research outputs
NHIVNA research award scheme

- Funding for project costs
- Mentorship and support
Identifying priority areas for interventions to improve healthcare experiences for patients with a dual diagnosis of HIV and cancer and describing the barriers and facilitators to their implementation
Initial perceptions of HIV nurses involved in delivering a community based intervention to improve engagement of HIV patients in care and treatment
Felicity Young

• What is the experience of HIV healthcare while in English prisons? An exploration of men’s experiences.
Assessment of progress

- Level of engagement with the research networks
- Indications of research collaborations
- Applications and uptake of research funding opportunities
- Completion of funded projects
- Research outputs
What next?

- Research award scheme 2020
- Patient and public involvement research training and development programme - MAC AIDS funded
Conclusion

• We have made good progress in the first year
• Provides a foundation on which to build
• The strategic plan gives us a roadmap and a way for measuring progress.
• Make use of the opportunities and get involved
