Our strategy for the NHS: an executive summary

1. The Government upholds the values and principles of the NHS: of a comprehensive service, available to all, free at the point of use and based on clinical need, not the ability to pay.
2. We will increase health spending in real terms in each year of this Parliament.
3. Our goal is an NHS which achieves results that are amongst the best in the world.

Putting patients and public first

4. We will put patients at the heart of the NHS, through an information revolution and greater choice and control:
 - a. Shared decision-making will become the norm *no decision about me without me.*
 - b. Patients will have access to the information they want, to make choices about their care. They will have increased control over their own care records.
 - c. Patients will have choice of any provider, choice of consultant-led team, choice of GP practice and choice of treatment. We will extend choice in maternity through new maternity networks.
 - d. The Government will enable patients to rate hospitals and clinical departments according to the quality of care they receive, and we will require hospitals to be open about mistakes and always tell patients if something has gone wrong.
 - e. The system will focus on personalised care that reflects individuals' health and care needs, supports carers and encourages strong joint arrangements and local
