

National HIV Nurses Association

NHIVNA Pre-conference Study Day
'Current Issues in HIV, Hepatitis and other
Blood-borne Viruses'
In collaboration with BASLNF

Royal Armouries International, Leeds

17 June 2015

17th Annual Conference of the
National HIV Nurses Association (NHIVNA)

National HIV Nurses Association

Adele Torkington
North Manchester General Hospital

17 - 19 June 2015 - Royal Armouries International, Leeds

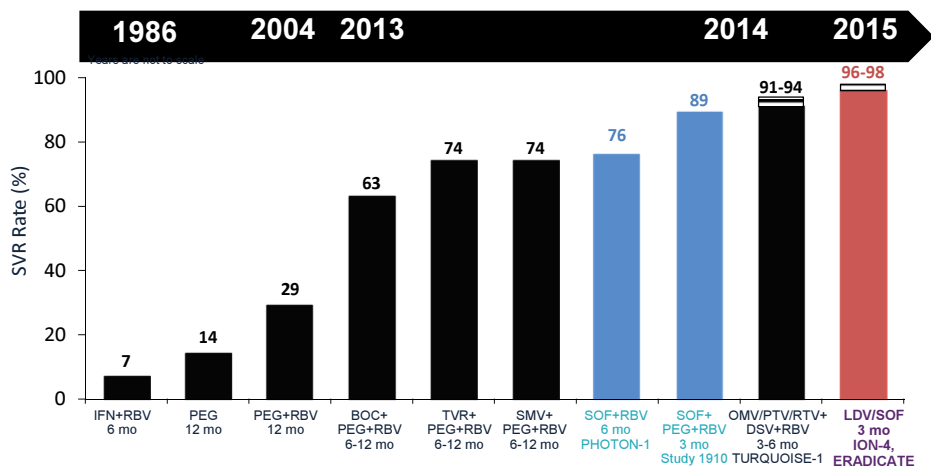

One Year On..... Where are we now??

Adele Torkington
North West Infectious Diseases Unit
17/6/15

Plan

- Discuss if HIV co-infection is still a “hard to treat” population
- Discuss the new regimes available
- Discuss the guidance and support
- Discuss what NHSE and NICE allow us to use

SVR Rates for Approved Therapies in HCV GT 1 Patients Co-infected with HIV

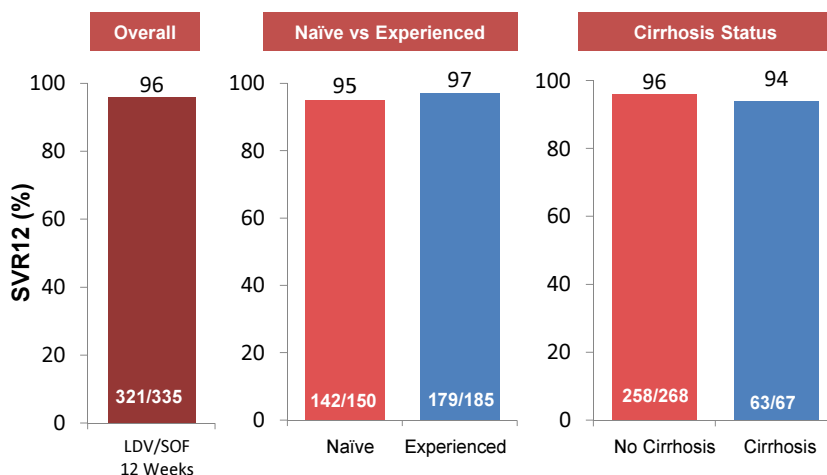

2015 AASLD/IDSA Guidance: "HIV/HCV co-infection should receive the same treatment as recommended for HCV mono-infection"

Dieterich D et al. CROI 2014; P824; Rodriguez-Torres M et al. IDWeek 2013; P8714; Sulkowski M et al. Lancet Infect Dis 2013;13:597-605; Sulkowski M et al. Ann Intern Med 2013;159:86-96; Sulkowski M et al. Lancet 2014;314:653-61; Sulkowski M et al. AIDS 2014; P8104 LB; Torriani FJ, et al. N Engl J Med 2004;351:438-50; AASLD/IDSA/HAS-USA. Recommendations for testing, managing, and treating hepatitis C. <http://www.hcvguidelines.org>. Accessed January 15, 2015

ION-4: LDV/SOF in HIV/HCV

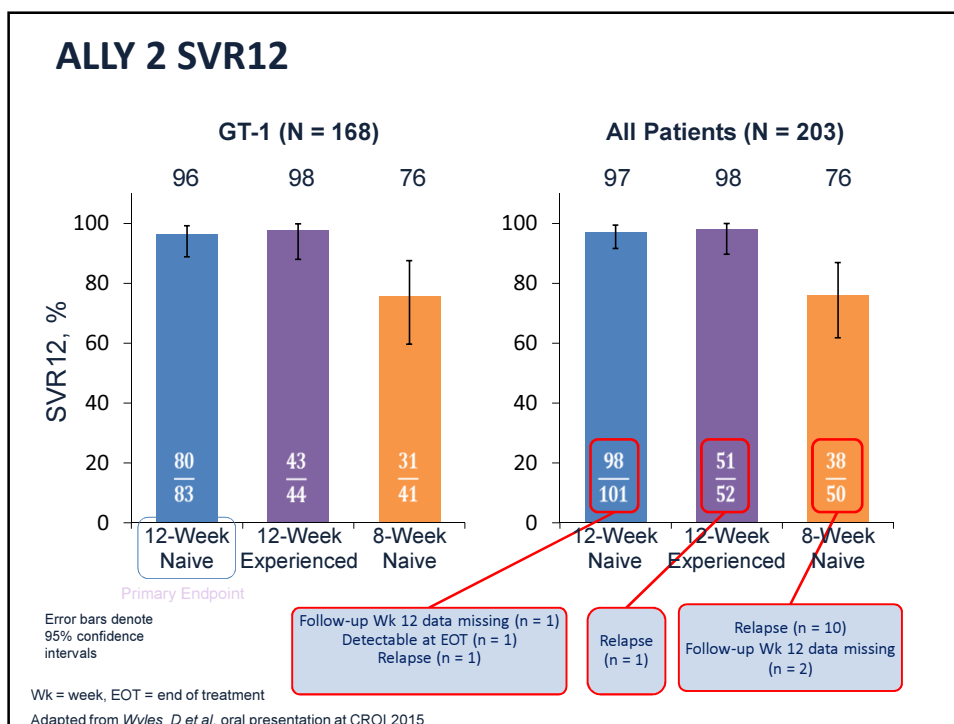

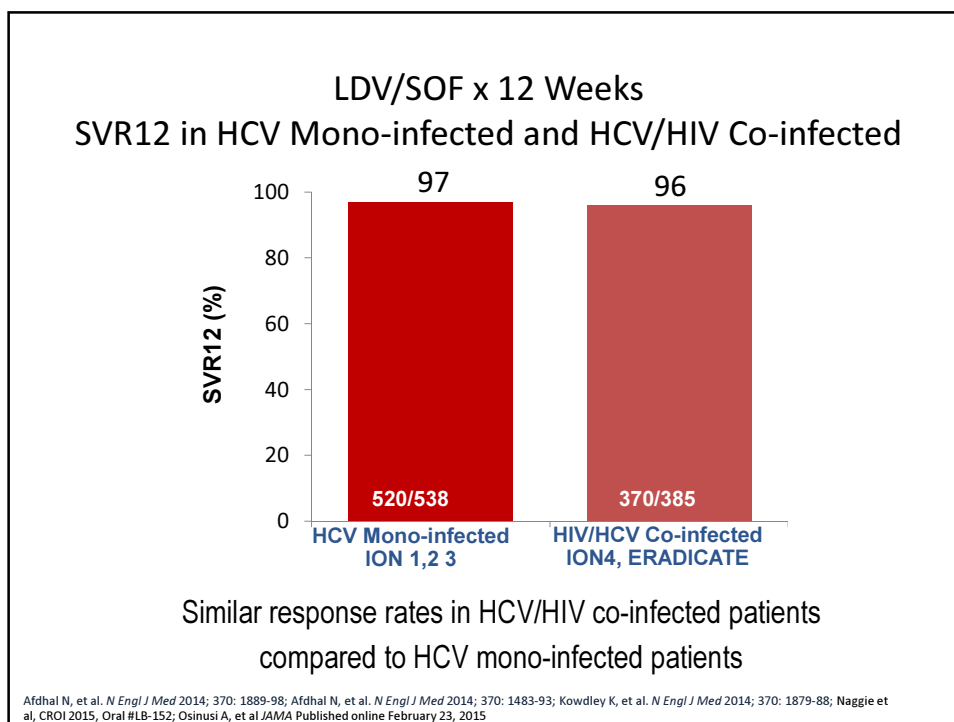

SVR12: Overall, TN vs TE and by Cirrhosis Status

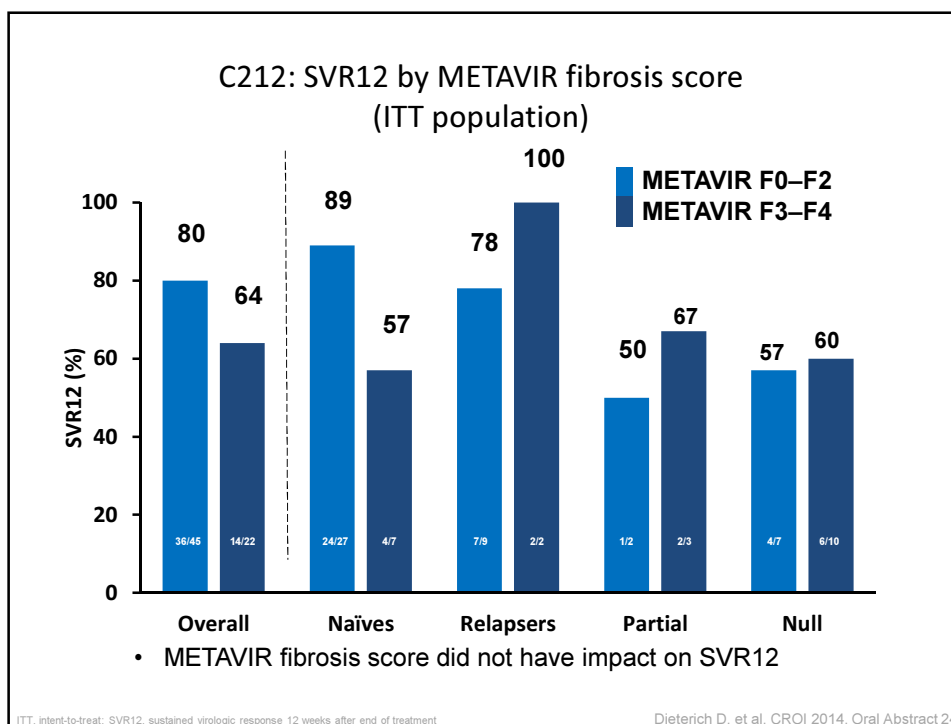

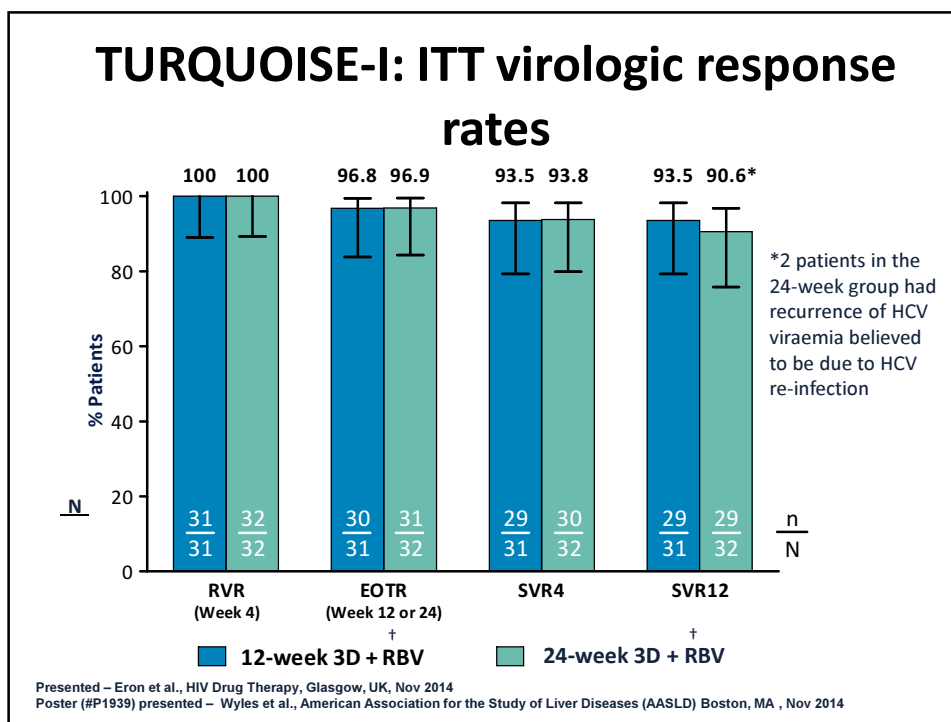

- Among those who were treatment-experienced with cirrhosis, 98% (46/47) achieved an SVR12

HAR/UK/15-03/MMAR/1204: March 2015

Naggie et al, CROI 2015, Oral #LB-152

One Year ago....

Now

- Sofosbuvir/ledipasvir
- Sofosbuvir/daclatasvir
