HIV Insight: NHIVNA's E-Learning Initiative

2013

National HIV Nurses Association

HIV Insight: History

- Supported by a grant from Gilead Health Sciences Ltd
- Objective was to provide educational support for nurses that was directly linked to the NHVNA competencies
- First modules released in 2009
- Now have 6 modules
 - 5 'basic'
 - 1 'advanced'

National HIV Nurses Association

Modules

Basic

1. Understanding HIV
2. Caring for people with HIV
3. Anti-retroviral therapy
4. Health promotion
5. HIV testing

Advanced

1. Managing complexity in anti-retroviral therapy

User Friendly HIV Insight Features

- Each module is composed of several short tutorials
- Users can complete tutorials and modules in short chunks of time & at their own pace
- Upon completion of a module, the user receives a certificate and a workbook

National HIV Nurses Association
